In re application of:

AZIZ et al.

Reissue of U.S. Patent No.: 5,548,646

Issued: August 20, 1996

Assignee: Sun Microsystems, Inc.

For: SYSTEM FOR SIGNATURELESS
TRANSMISSION AND RECEPTION OF
DATA PACKETS BETWEEN COMPUTER
NETWORKS

The Honorable Commissioner of Patents and Trademarks

REISSUE APPLICATION DECLARATION BY INVENTORS

As a below-named inventor, I hereby declare that:

1. My residence and citizenship are stated below next to my name.
2. I have reviewed and understand the contents of the specification and claims of the above-identified reissue application, and believe myself to be the original, first, and a joint inventor of the invention described and claimed in the aforesaid reissue application and in U.S. Letters Patent No. 5,548,646 on which said reissue application is based.
3. I do not know and do not believe that said invention was ever known or used in the United States of America before the invention thereof by myself.
4. I acknowledge a duty to disclose information I am aware of which is material to patentability as defined in 37 C.F.R. § 1.56.
5. I believe that the original patent, U.S. Patent No. 5,548,646, is partly inoperative as the patent claims less than I had the right to claim in the patent. As an example, the patent failed to claim systems and methods for decrypting data packets according to the invention (see, e.g., new claim 18).
6. Claims 1 and 11 were amended to correct a typographical error of "carded" that was made by the PTO when the patent issued. Claim 11 was also amended to delete the

unnecessary phrase "the first and second computer networks" that appeared in the preamble of the claim when the application was filed. Additionally, claim 11 was amended to more clearly recite "the first data packet" where appropriate. Claim 14 was amended to more clearly recite the "said at least one predetermined criterion" to follow the introduction of this element. These amendments were made to enhance the readability of the claims and do not affect the scope of the claims.

7. All errors being corrected in this reissue arose without any deceptive intent on my part.

I declare further that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
